PROJECT RESULTS

- 5 study visits by the team from Tulucesti to Sireti Commune and 5 study visits for the team from Sireti to Tulucesti. Each trip will involve 5 participants for a duration of 3 days. The purpose of these study visits is to exchange experiences in the field of community
- A Joint Strategy and Action Plan will be developed to continue activities after the project ends and to develop new projects in the field of cultural and tourism exchanges
- 1 training sessions with minim15 people each in Tulucești and 1 training sessions with 15 people each in Sireti.
- The Cross-Border Community Facilitators Network will be established after the start of the courses and during one of the study visits, when a memorandum to this effect will be signed. Network members will liaise between residents and local councilors to report legal issues they encounter.
