

# PROJECT OBJECTIVE

Strengthening the cross-border cooperation for monitoring and reducing plastic pollution in the Prut River.

**ROMD00401**

## Partnership

LP1 – – ASSOCIATION FOR ECOLOGY AND SUSTAINABLE DEVELOPMENT IAȘI (RO)

PP2 – Biologic Association (RO)

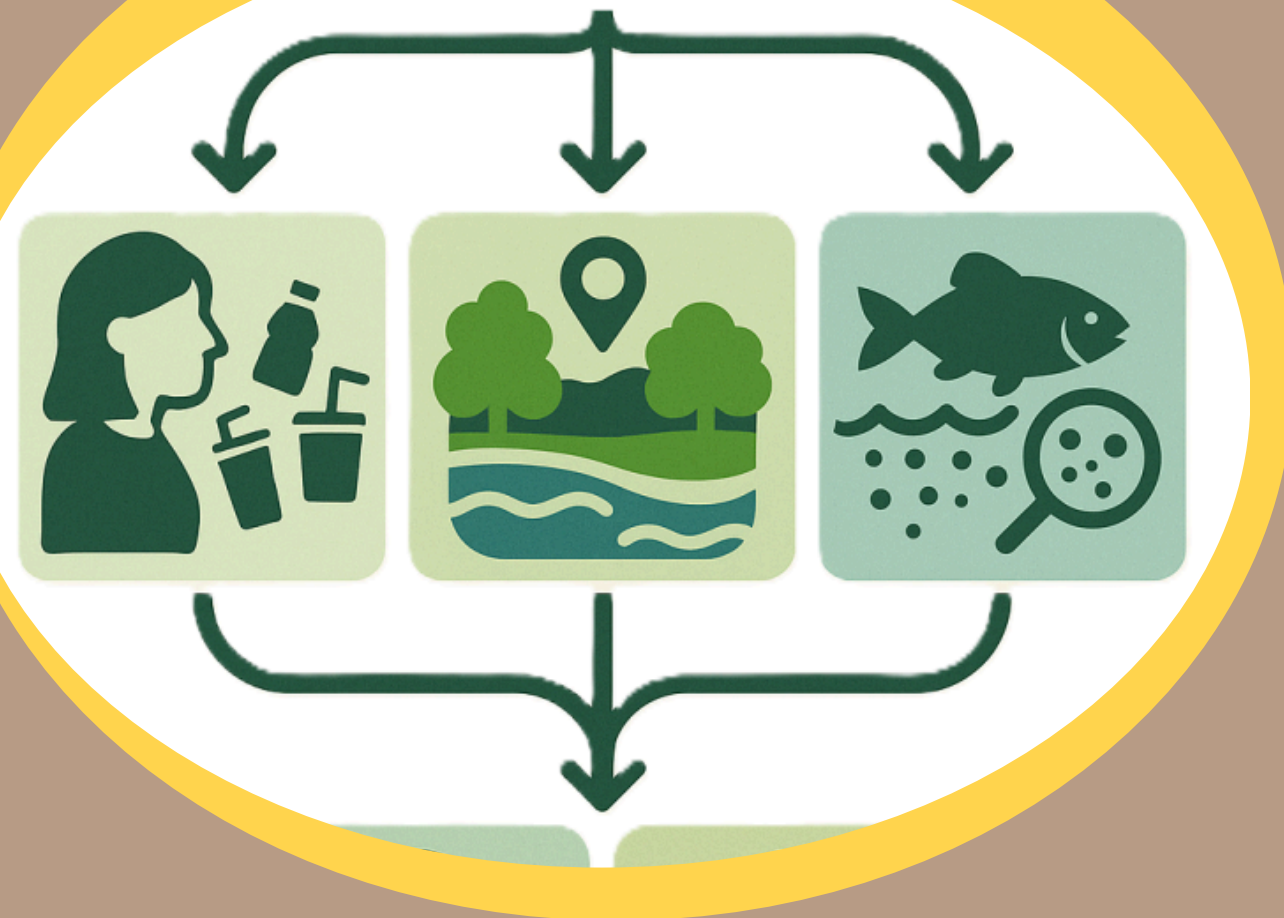

PP3 – Public Association Society of Ecotoxicologists of Republic of Moldova (MD)

**PROMOTING LONG-TERM ACTION AND SUSTAINABLE TECHNIQUES FOR INHIBITING CONTAMINATION WITH PLASTIC IN FRESHWATER ECOSYSTEM FROM CROSSBORDER AREA RO-RM**

**PLASTICWISE**

# PLASTICWISE

## PROJECT RESULTS

- 1 report regarding perceptions and behavior of the communities regarding plastic waste
- Elaborating the joint strategy regarding the monitoring for freshwater ecosystem plastic contamination in the protected area of Prut river within Ro-RM cross border area
- 1 pilot study for Prut river evaluating macro- microplastics and the related microbiota contamination
- Elaboration of "Citizens involvement in the collection of relevant data for plastic pollution -waste prevention guidebook for students and teachers"
- 2 round tables in Iasi county to familiarize citizens with the idea of waste separation at home and to inform them about the impact that plastic water pollution has on their community, how separate collection works, necessity, economic advantages and legislative framework.
- 2 plastic waste sanitization actions in Iasi county
- Placement of 10 containers for plastic collection in areas near the shores of the river Prut

**TOTAL BUDGET:** 224.216,36 EUR

**EU FUNDING:** 201.794,71 EUR

**PROJECT START:** 15.07.2025

**PROJECT END:** 14.01.2027
