## Partnership

LP1 – THE CITY OF DROCHIA, (MD)

PP2 – Saveni City, (RO)

**GREEN URBAN PATH  
IN DROCHIA CITY (MD)  
AND SAVENI CITY  
(RO)- GREEN URBAN  
PATH**

## PROJECT RESULTS

- Rehabilitation of green areas in Drochia
- Planting native tree, shrub, and flower species to restore local biodiversity and improve the park's ecological resilience.
- Creating ecological corridors and microhabitats to support pollinators, birds, and small fauna.
- Implementing biodiversity-friendly LED lighting to minimize light pollution and protect nocturnal species.
- Developing pedestrian and bicycle-friendly infrastructure, including a dedicated bike lane and a parking area at the park entrance.
- Enhancing visitor access with safe, inclusive pathways for pedestrians and cyclists.
- Installing educational signage and interpretation points to raise awareness about local flora, fauna, and sustainable urban practices.
- Creating green recreational areas with seating, shade, and eco-friendly urban furniture.
- rehabilitation of school courtyards in Saveni
- Organizing a joint summer school to promote sustainable urbanism and green urban planning

**TOTAL BUDGET:** 773.549,34 EUR
