1. Introduction

In brief, 2 separate legal frameworks

- **National law**
 - **Romania** - contracting authorities / entities as defined by the European Union law

TAKE NOTE!

Partners from Romania are advised to check with their National Authority whether or not their organizations fall under the definition of contracting authorities / contracting entities as provided by the EU law.

- **Financial Regulation**¹
 - **Republic of Moldova** - all Partners (public or private)
 - **Romania** - Partners that are not contracting authorities / entities as defined by the European Union law
 - Annex II of Financing Agreement, which is a structured compilation of the rules laid down in the Financial Regulation

TAKE NOTE!

The legal provisions mentioned in the present Fiche are not exhaustive. The Partners are still required to thoroughly check the legal provisions of the Financial Regulation / Annex II of the Financing Agreement before carrying out procurement procedures, in order to avoid errors and ineligible expenditure.

¹ REGULATION (EU, Euratom) 2024/2509 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 23 September 2024 on the financial rules applicable to the general budget of the Union (recast) REGULATION (EU, Euratom) 2018/1046 is repealed.

TAKE NOTE!

Annex II of the Financing Agreement reflects the main procurement provisions of the Financial Regulation applicable for external actions and it is structured in the following procedural logic:

- A. General provisions
- B. Types of procedures
- C. Preparation of the procedure
- D. Technical specifications and criteria for assessment
- E. Submission, evaluation and award decision
- F. Contract performance

2. Common aspects for all Partners

2.1. Artificial split

Contract splitting is the practice of artificially breaking up purchases of goods/services/works to bring total expenditure below the legal thresholds in order to avoid the procurement rules.

The Partner shall not artificially split the contract into several distinct, lower-value contracts for the purpose of reducing the total value so that it falls underneath the legal threshold and thereby becomes exempt from the application of a more complex procedure.

Please see also the concept of division of a contract into lots, which should be used whenever appropriate.

2.2. Division into lots

The Partner shall divide a contract into lots whenever possible, with due regard to broad competition. Only if there is a plausible reason not to do so, the Partner shall tender a single contract for the entirety of the object of the procurement.

TAKE NOTE!

In case the Partner does not divide a contract into lots, a justification for not subdividing contract into lots should be recorded in the procurement file.

For Partners who are contracting authorities / entities in Member States, this requirement may depend on the threshold/type of the procurement procedure. Please check your national legislation.

2.3. Conflict of interests

The Partners shall avoid any situation in which any of their staff may be in conflict of interests, including by making sure that:

- There is no (sub)contracting services/supplies/works to the staff of the Partner
- There is no (sub)contracting services/supplies/works to the other Partners' staff
- There is no other suspicion, for example the ones listed below:
 - (sub)contracting services to member(s) of the family
 - (sub)contracting services to a service provider (e.g. company, legal authorized person, etc.) in which any representative of the (Lead) Partner, its' staff or (a) project staff is owner or partner

In case such situations appear, the affected expenditure shall be ineligible.

2.4. Jems

Please check your national legislation (GD 264/13.03.2003).

3. Specific aspects for Partners applying FR/Annex II FA

3.1 Introduction

The Financial Regulation lays down a set of procurement procedures to be used depending on the scope and value of the contract. The present Fiche addresses the most common procedures carried out in Interreg NEXT ROMD Programme, which are **single tender procedure** and **simplified procedure**.

Legal framework

- **Financial Regulation** (FR), Annex II of Financing Agreement (FA)
 - Thresholds of the estimated value of the contract

<i>Single tender procedure</i>	> 2 500 EUR ⁴ (without VAT) ≤ 20 000 EUR (without VAT)
<i>Simplified procedure</i>	> 20 000 EUR (without VAT) < 100 000 EUR (without VAT) (supplies) > 20 000 EUR (without VAT) < 300 000 EUR (without VAT) (services / works)
<i>Local open procedure</i>	Not applicable for Services ≥ 100.000€ < 300.000€ for Supplies ≥ 300.000€ < 5.000.000 € for Works
<i>Open or restricted procedure</i>	≥ 300.000€ for Services ≥ 300.000€ for Supplies

⁴ Payments of amounts less than or equal to EUR 2 500 in respect of items of expenditure may be carried out simply as payment against invoices, without prior acceptance of a tender.
